

SISTER FRAMES

International Photography Contest

The **Sister Frames International Photography Contest** Organized by the Municipality of Karşıyaka aims to build a visual and cultural bridge among Karşıyaka's sister cities through the universal language of photography.

This international competition encourages original, ethical, and documentary-driven photographic works, while highlighting the natural, cultural, and social identities of cities from diverse perspectives.

Scope and Themes of the Competition

The competition is open to participants from Karşıyaka's national and international sister cities and is organized under **three main categories**:

1. **Green Breath of the City**
Photographs that represent the participant's city through themes of nature, environmental awareness, and sustainability.
2. **Story of a Plate**
Images that showcase local cuisine, culinary traditions, and the gastronomic identity of the city.
3. **City From Children's Eyes**
City views photographed by children aged 7–12, reflecting their unique perspective on their surroundings.

Each participant may submit **one photograph per category**, and all submitted works must be taken within the city represented by the participant.

Photographs submitted to this competition must be specific to the city and/or district in which the participant resides and/or applies, and should reflect and highlight the identity, cultural fabric, and distinctive character of that location.

The primary objective of the competition is to visually present the cultural richness of the cities and districts, share these values, and build a lasting cultural bridge between regions.

Evaluation Process

All submitted photographs will be evaluated by a **Selection Committee** consisting of **municipal representatives, academics, and professional artists** with expertise in their respective fields.
